FRIDAY 4th APRIL 2025

Loving Learning Together

Latest News

Dear Parents and Carers,

We've had a lovely week in school full of Easter fun, and as always I'd like to pass on my thanks not only to our wonderful staff in school, but to you at home for helping make Easter bonnets, for donating eggs for our raffle, and for buying raffle tickets. The Easter egg raffle raised a cracking £521 and every penny will help buy extra resources for the children to enjoy in school. Thanks to those of you who were able to stay for the Easter Bonnet Parade as well—I think it was our biggest crowd yet!

Reception even had time for a pirate themed day on Wednesday, to celebrate the topic they've enjoyed so much! And Year 6 managed to fit in some practice test papers as they get ready for their SATs (end of school tests) - not quite as much fun as a pirate party but they all showed brilliant attitudes—well done y6!

Loving Learning Together

Our Easter Bonnet winners!

Hope you all have a lovely Easter break

We Need You to be a Parent Governor

You may have seen an email from school asking for Parent Governors. We have two vacancies to join our friendly governing board, who meet once every 6 weeks to hear about school developments, ask questions and offer suggestions. There are documents to read, and it is a commitment but it's very rewarding and interesting. If you'd like a chat to find out more, please pop into school or give me a ring.

Loving Learning Together

This month, at Knotty Ash Primary School we've extended our partnership with Zero Food Waste. We are now hosting events in the school hall on a Saturday and Sunday evening.

Bags of food need to be booked in advance (see below for how to do this.) It's not a food bank; it's saving food from landfill :)

We are really pleased to be able to help with this good cause, but rest assured we are also working hard to make sure the school site is safe and there is minimal disruption to the local community.

Liverpool Zero Waste Community

SATURDAY EVENTS

11 - 12pm
Open Event - No booking required
St Hilda's Church, Stuart Avenue, L25 ONG

12 - 1pm
Open Event - No booking required
Methodist Centre, Atherton Street, Prescot, L34 5QN

10pm
Bagged Event - Bookings open at 7am
Elm Hall Drive Methodist Church, Elm Hall Drive, L18 1LF

10pm
Bagged Event - Bookings open at 7am
Knotty Ash Primary School, Thomas Lane, L14 5NX

By working in partnership, saving surplus food & building community: great things can happen!

Liverpool Zero Waste Community

SUNDAY EVENTS

6pm
Bagged Event - Bookings open at 7am
The Place To Be, Eastern Avenue, L24 2SX

10pm
Bagged Event - Bookings open at 7am
Knotty Ash Primary School, Thomas Lane, L14 5NX

Everyone is welcome and everything we distribute is free

By working in partnership, saving surplus food & building community: great things can happen!

HOW TO BOOK BAGS

- Send us a message via messenger at 7am on the day you want to collect, bookings before 7am are not accepted.
- If there is more than 1 event that evening, please specify the event you wish to attend.
- All bags are allocated on a 1st come, 1st served basis in the order we receive messages.
- Please only send 1 message, someone will always reply, if you message multiple times you will lose your place.
- If you are allocated a bag, it will be ready for collection at 10pm.
- Please only request 1 bag per household per 7 day period.

By working in partnership, saving surplus food & building community: great things can happen!

Loving Learning Together

What have we been learning?

Nursery

We have had an exciting week in nursery taking part in lots of Easter activities. We made Easter cards and Easter baskets in class. We listened to the Easter story and made some Easter crosses with symbols of Easter on them. We made Easter nests by melting chocolate and mixing cornflakes into the chocolate so then we put them into our Easter baskets.

We enjoyed taking part in the Easter bonnet parade and we excited for the Easter raffle draw after. We did an Easter egg hunt in the garden and we also did some Easter egg rolling games. We have enjoyed lots of outdoor play this week as the weather has been so lovely - we have been hunting for mini beasts and playing in the mud kitchen.

Happy Easter everyone - enjoy the break !

Loving Learning Together

What have we been learning?

Reception

Reception have had a very exciting week! It began with a spring walk and taking photos of all signs of spring!

On Tuesday they enjoyed taking part in the Easter Bonnet Parade. Their hats were all amazing.

Wednesday brought the end of our pirate topic and our pirate party! They had the best day and even found some treasure!

The week ended with bring a toy to school day and an egg hunt!!! Everyone is ready for a rest!!!

Loving Learning Together

What have we been learning?

Year 1

Loving Learning Together

What have we been learning?

Year 2

Happy Easter everyone! The children in Year 2 have certainly earned themselves a lovely break - some of them may need to rest their wrists on a silk cushion for the first few days with all of their wonderful Antarctic exploration work that they've been doing in their Showcase Writing books this week! I've been so impressed with their determination to produce their best piece of written work yet. In addition to that, the children enjoyed a very informative visit from Claire the dental nurse. She had lots of toys and gadgets to help them understand why they must brush their teeth twice a day and for 2 minutes each time. They all got a chart to take home and there are dojos to be earned if they complete it and have a parent sign it. In Geography, the children learned the names of the 5 oceans and we used atlases to locate them. In P.E., our topic is creativity and ball skills and the children have plenty of both. We've used the parachutes to create different games and used different sizes of balls to practice our ball throwing, balancing, catching and kicking. Finally, our Easter bonnet parade and assembly capped off a great week of chocolate, basket making and of course we learned about the Easter story too. Enjoy your holiday everyone!

Loving Learning Together

What have we been learning?

Year 3

What an EGG-cellent final week of term with lots of spring themed fun! We've made colourful Easter baskets for our sweet treats, reusing plastic drinks bottles and painting them with special acrylic paint. We enjoyed a Maths themed egg hunt, working with a partner to solve the multiplication calculations hidden around the room. In a favourite Knotty Ash tradition, we proudly paraded our amazing Easter bonnet creations for families on Tuesday as well as enjoying the EGG-citement of our Easter Egg Raffle!

We continued exploring the Stone Age, writing our own time-travelling adventure stories, identifying different rocks in Science and sculpting 'Lion Man' from clay (as we didn't have any mammoth tusks to hand for carving!) We also managed to squeeze in a sunny morning in Forest School, adverbs in English and mass in Maths!

We wish all our families a very Happy Easter and look forward to seeing you next term for more learning fun including our first swimming lessons with the school!

Loving Learning Together

What have we been learning?

Year 4

Year 4 have had a great week mixed with hard work and some lovely Easter celebrations! We had a great start to the week taking part in the Knotty Ash Easter Bonnet Parade! The children proudly showed off their fantastic creations and we celebrated with a whole school assembly.

In English, the class have been working very hard to finish off their Stone Age stories before the Easter break. They have been using wonderful descriptive language and it is great to see how engaged they are with their own story planning and writing.

In maths, we have been continuing to look at fractions and revising over our knowledge of addition and subtraction.

Loving Learning Together

What have we been learning?

Year 6

What a week it's been in year 6! They have all worked so hard completing mock SATs this week and have really impressed us all with not only how much they have learnt but their great attitudes. Around doing tests, we have managed to fit in some Easter fun! We had lots of wonderful Easter bonnet entries and I was blown away by the creativity on display! A special mention to the year 6 winners, Emily and Emma and everyone who made a hat they were all fabulous. We also used paper weaving to create our own Easter baskets which we then decorated and filled with treats to take home. We then finished the week by making the most of the sun, playing some new PE games with Mr England. As always well done year 6, you've worked especially hard this term! Enjoy the well deserved break over Easter! From the year 6 team :)

Loving Learning Together

What have we been learning?

DRB 1

What a fantastic week we've had!

We've had so much fun celebrating Easter, especially showing off our wonderful Easter bonnets during the parade. Every bonnet was amazing, and it was clear that a lot of effort went into making them—well done to everyone!

To get into the Easter spirit, we decorated gingerbread Easter chicks and created some beautiful Easter cards in our mainstream classes. We can't wait to show you what we've made!

In KS1, we have been working on subtraction, using skittles to strengthen our skills in a fun and engaging way. We have also started labelling our pictures for the story We're Going on a Lion Hunt, thinking carefully about Who? What? Doing what?

Meanwhile, in EYFS, the children have been enjoying exciting activities such as finding numbers one and two in an outdoor obstacle course, hunting for Easter chicks hidden in eggs, and counting how many they could find!

We hope all our KA families have a wonderful Easter break—stay safe and enjoy the holiday!

Loving Learning Together

What have we been learning?

DRB 2

The Junior DRB had an action-packed week full of fun and learning! The children had a blast discovering all about fossils and how they help us learn about the past. They also got a chance to explore the real meaning behind the Easter story, and even learned where different BSL signs for “Easter” come from! To top it all off, we had our annual Easter bonnet parade, and the kids looked absolutely fabulous in their creative, colourful bonnets! It was such a fun way to wrap up the week. Wishing everyone a Happy Easter full of fun, relaxation, and maybe a few chocolate eggs!

Loving Learning Together

Attendance

Class	Attendance
Reception	90.3%
Year 1	95.6%
Year 2	91.9%
Year 3	99.6%
Year 4	91.5%
Year 5	97.1%
Year 6	95.0%

Whole school attendance this week 94.4%

Class attendance winners Year 3 99.6%

Congratulations to Year 3—AMAZING attendance!

Remember, every child should be in school every day,
unless they are too ill. For support, give us a call!

Online Safety

At The National College, our WakeUpWednesday guides empower and equip parents, carers and educators with the confidence and practical skills to be able to have informed and age-appropriate conversations with children about online safety, mental health and wellbeing, and climate change. Formerly delivered by National Online Safety, these guides now address wider topics and themes. For further guides, hints and tips, please visit nationalcollege.com.

SNAP STREAK

97
DAYS

What Parents & Educators Need to Know about

SNAPCHAT

AGE RESTRICTION
13+

Snapchat is a messaging app which allows users to send images, videos and texts to others. Its best-known feature is that anything sent 'disappears' 24 hours after it's been viewed; however, users are known to take screenshots or use another device to obtain a photo of their screen. In 2023, Snapchat added a chatbot function called 'My AI'.

WHAT ARE THE RISKS?

ARTIFICIAL INTELLIGENCE

My AI is Snapchat's new chatbot, which replies to questions in a human-like manner. However, the software is still in its infancy and has significant drawbacks, such as biased, incorrect or misleading responses. There have already been numerous reports of young users turning to AI for medical help and diagnoses, which could be inaccurate and therefore potentially dangerous.

PREDATORS AND SCAMS

Predators can exploit Snapchat's disappearing messages by, for example, telling a user they have naked photos of them and will post them unless they're paid. Snapchat's own research found that 85% of teenagers had experienced this – on this app or others. This likely isn't helped by 'SnapMaps' – a feature which highlights your exact position in real-time. This is meant to help friends keep track of each other, but could be used for more sinister reasons.

MY EYES ONLY

Snapchat has a hidden photo vault called 'My Eyes Only'. Teens can conceal sensitive photos and videos from parents and carers in this folder, which is protected by a PIN. You can check for this by clicking on the icon which looks like two playing cards. This takes you to the 'Memories' folder which stores photos, stories and the My Eyes Only folder.

SCREEN TIME ADDICTION

Snapchat prioritises user engagement, with features like streaks (messaging the same person every day to build up a high score). The app also has sections called 'Discover' and 'Spotlight', which show tailored content to each user. However, this could also be seen as an attempt to hook users into watching videos endlessly. Furthermore, constant notifications can lure people into using the app.

INAPPROPRIATE CONTENT

Some content on Snapchat simply isn't suitable for children. The hashtags used to group content are determined by the poster, so even an innocent search term could still yield age-inappropriate results. The app's 'disappearing messages' feature also makes it easy for young people to share explicit images on impulse – so sexting continues to be a risk associated with Snapchat.

ONLINE PRESSURES

Although many of Snapchat's filters are designed to entertain or amuse, the 'beautify' effects on photos can set unrealistic body image expectations – creating feelings of inadequacy in younger users. Snapchat now also has 'priority' notifications (which still get displayed even if a device is in 'do not disturb' mode), increasing the pressure on users to log back in and interact.

Advice for Parents & Educators

UTILISE PARENTAL CONTROLS

Snapchat's 'Family Centre' lets you view the details of the child's account – their friends list and who they've spoken to in the last week – and report any concerns. You must invite a child to the Family Centre for them to join. To keep the child's location hidden on the app, go into settings and turn on 'Ghost Mode' and 'Hide Live Location', and ensure they know not to share their location with anyone.

BLOCK AND REPORT

If a stranger does connect with a child on Snapchat and begins to make them feel uncomfortable through bullying, pressure to send explicit images or by sending sexual images to them, the child can tap the three dots on that person's profile and report or block them. There are options to state why they're reporting that user – such as annoying or malicious messages, spam or masquerading as someone else.

FAMILIARISE YOURSELF

Before you allow a child to download Snapchat, download it yourself and familiarise yourself with the app. Snapchat has produced a parents' guide to the app to help you understand how it works and any protections they have in place. A link for this can be found in the sources below.

ENCOURAGE OPEN DISCUSSIONS

Snapchat's risks can be easier to handle if you nurture an open dialogue. For example, discuss My AI's responses to questions and how reliable they are. Talk about scams and blackmail before letting children sign up. If they're lured into a scam, encourage them to tell you immediately. Talk openly and non-judgementally about sexting, emphasising its inherent risks. Furthermore, explain how popular 'challenges' on the platform can have harmful consequences.

Meet Our Expert

Dr Claire Sutherland is an online safety consultant, educator and researcher who has developed and implemented anti-bullying and cyber safety policies for schools. She has written various academic papers and carried out research for the Australian government comparing internet use and sexting behaviour of young people in the UK, USA and Australia.

ONLINE SAFETY NEWSLETTER

PROTECTING PRIVATE AND PERSONAL INFORMATION ONLINE

ISSUE 2

PROTECTING YOUR PERSONAL INFORMATION

In today's digital age, it is more important than ever that children are learning how to protect their personal information online. Remind children that before sharing their information, they should ask themselves the following:

- Do I know this person?
- Is the site secure? (Look for a  in the web browser)
- Am I sharing any private details? (Birthday, school, address)

By following this process, children build a routine that protects their personal information.

TOP ONLINE SAFETY TIPS FOR CHILDREN:

Help your child build smart online habits with these key tips:

- **Check privacy settings** – Only friends should see their posts.
- **Never share personal details** – No addresses, phone numbers, or school names.
- **Use strong passwords** – Mix letters, numbers, and symbols.
- **Only accept real friends** – Don't add strangers online.
- **Think before posting** – Photos and comments stay online forever.

APP SPOTLIGHT - INSTAGRAM

This week's app spotlight is **Instagram**.

Instagram is popular for sharing pictures and videos, but as a parent, it's important to know what to monitor if your child is using it. Without guidance, children could be exposed to harmful content, strangers, or pressure to post things they don't fully understand.

- Instagram requires users to be at least 13.
- Make sure your child's account is set to private.
- Regularly check who is following them; they should only connect with people they know.
- Keep up with what they are posting.

Online Safety Newsletter

April 2025

Screentime

Screentime is classed as any time spent in front of a screen, so it includes everything from watching tv to completing homework on a laptop. Whilst there is no recommended screentime (except for under two, which is zero), it is important that we find a balance.

Screentime can obviously be beneficial, both for educational and entertainment purposes, however it is important to be aware of the risks, such as:

- Eye strain.
- Disrupted sleep.
- Less time for other activities and being outdoors.
- Affects our attention span.

Further information

Childnet discuss what is screentime and how much screen time is enough in this useful article:

<https://www.childnet.com/help-and-advice/screen-time-boundaries-parents/>

Social Media Concerns

Most social media apps have a minimum age rating of 13+. Whilst there are benefits, this article discusses some of the potential risks of using social media.

Risks of Social Media

- **Inappropriate content** – social media may expose children to content that is not appropriate for their age, including sexually explicit content or content that promotes harmful behaviours such as self-harm.
- **Cyberbullying** – this can take many forms, including sending nasty or hurtful messages, leaving unkind comments, sharing photographs of somebody else without their permission or impersonating somebody with a fake account.
- **Excessive Screentime/Addiction** – too much time online can affect mental health and disrupt sleep patterns.
- **Contact from strangers** – there is a risk of stranger contact, which can lead to an increased risk of grooming.
- **Challenges** - children may not have developed the skills and ability to critically analyse what they see online. Whilst some challenges are fun and provide no risk, there will be challenges online that are risky/dangerous.
- **Sharing too much information** – children may share personal information e.g. their phone number, school name or inappropriate photos of themselves.
- **Algorithms** – algorithms influence what we see on social media platforms to keep us engaged on the platform. This can lead to 'echo chambers' where users are only seeing content that relates to their opinion rather than seeing a balanced viewpoint. It can also lead to a user being exposed to large amounts of content about one topic/theme, which may not be helpful if it is negative.

How can I help make it a safer environment?

- Check the age rating of each app and restrict access until they reach that age.
- Set up age-appropriate parental controls, for example set content restrictions and screen time limits.
- Chat to your child about what they are doing online, including who they are following and interacting with online.
- Restrict devices in their bedrooms.
- Show your child how to use any reporting and blocking tools.

Further information

You can find out more from the following:

- <https://kidshealth.org/en/parents/social-media-smarts.html>
- <https://www.youngminds.org.uk/parent/parents-a-z-mental-health-guide/social-media/#Talkingaboutcyberbullying>

Users of this guide do so at their own discretion. No liability is entered into. Current as of the date released 01.04.25. The inclusion of any links does not imply any affiliation with or endorsement of the linked websites, documents, or videos, nor are we claiming any ownership or copyright in the content of the linked materials.

Loving Learning Together

Group Chats

Is your child part of any group chats? This could be on social media, for example on WhatsApp or within games such as Fortnite. If so, it is important that you are aware of the potential risks, which include:

- **Inappropriate content** – there is often a lack of moderation within chat facilities so users could be exposed to content/language that is not suitable for their age.
- **Bullying** – there are many instances where inappropriate/hurtful comments are shared within groups, this could take the form of name calling or body shaming. Bullying can also be in the form of excluding others from the group. These issues often overspill into 'real life'.
- **Strangers** – your child could be added to groups with people they do not know or even with someone that they have previously blocked.
- **Conversations can be shared/screen shot** – make sure your child is aware that anything they share within a group can be shared with others outside the group.
- **Sharing personal information** – remind your child to be aware of the information they share with others including images and location.

How can I help make group chats safer?

- Check the recommended age rating and adhere to them. If we all did this, peer pressure would be reduced.
- Set up age-appropriate parental controls and set screen time limits.
- Show your child how to use any reporting and blocking tools.

What else can I do?

- It is crucial to have regular conversations with your child about the risks outlined above and about what they are doing online.
- Talk about who they are chatting with, encourage them to think carefully about the messages they send and how they might be perceived by others. Talk about positivity and not saying anything hurtful. Ask them to think about whether they would say what they are messaging, face to face.
- Devices should be used in family rooms so you can monitor what they are doing and who they are interacting with.
- Finally, make sure to model good digital behaviour yourself, as children often learn by observing the adults around them.

Further information

Childnet have created a Group Chat Guide for parents following consultation with the Childnet Youth Advisory Board and Digital Champions: <https://www.childnet.com/resources/cheat-sheet-group-chats/>

Did you know some Emojis have a double meaning?

For those that have watched Adolescence, you will know children and young people may be using emojis to mean something completely different. For example, the kidney bean emoji may be used to identify as an incel. It is important that you are aware of how emojis can be used and keep up to date with the way in which they can be used as their meanings are changeable. You can find out further information here:

<https://www.bark.us/blog/emoji-slang-guide/>

Vodafone: The Rise of the Aggro-rithm

Vodafone released a short video last year, titled 'The Rise of the Aggro-rithm'. It highlights the harmful algorithms targeting young boys. It's certainly worth a watch as well as learning about the terrifying statistics accompanying it:

<https://www.vodafone.co.uk/newscentre/press-release/ai-aggro-rithms/>

3 things to consider before giving your child a smartphone

Wayne Denner has published a blog discussing the three things that parents wished they had considered before giving their child a phone. You can read the article here:

Loving Learning Together

It can be tricky deciding whether or not to keep your child off school or nursery when they're unwell.

There are government guidelines for schools and nurseries about [managing specific infectious diseases at GOV.UK](#). These say when children should be kept off school and when they shouldn't.

If you do keep your child at home, it's important to phone the school or nursery on the first day. Let them know that your child won't be in and give them the reason.

If your child is well enough to go to school but has an infection that could be passed on, such as a cold sore or head lice, let their teacher know.

Other illnesses Follow this advice for other illnesses:

Coughs and colds

It's fine to send your child to school with a minor [cough](#) or [common cold](#). But if they have a fever, keep them off school until the fever goes.

Encourage your child to throw away any used tissues and to wash their hands regularly.

High temperature

If your child has a [high temperature](#), keep them off school until it goes away.

Chickenpox

If your child has [chickenpox](#), keep them off school until all the spots have crusted over.

This is usually about 5 days after the spots first appeared.

Cold sores

There's no need to keep your child off school if they have a [cold sore](#).

Encourage them not to touch the blister or to share things like cups and towels.

Conjunctivitis

You don't need to keep your child away from school if they have [conjunctivitis](#).

Get advice from your pharmacist. Encourage your child not to rub their eyes and to wash their hands regularly.

COVID-19

If your child has mild symptoms, such as a runny nose, sore throat, or slight cough, and feels well enough, they can go to school. Your child should try to stay at home and avoid contact with other people if they have [symptoms of COVID-19](#) and they either:

- have a high temperature
- do not feel well enough to go to school or do their normal activities

Ear infection

If your child has an [ear infection](#) and a high temperature or severe earache, keep them off school until they're feeling better or their high temperature goes away.

Loving Learning Together

Hand, foot and mouth disease

If your child has hand, foot and mouth disease but seems well enough, there's no need to keep them off school. Encourage your child to throw away any used tissues straight away and to wash their hands regularly.

Head lice and nits

There's no need to keep your child off school if they have head lice but tie hair back. You can treat head lice and nits without seeing a GP.

Impetigo

If your child has impetigo, they'll need treatment from a GP, often with antibiotics. Keep them off school until all the sores have crusted over and healed, or for 48 hours after they start antibiotic treatment. Encourage your child to wash their hands regularly and not to share things like towels and cups.

Ringworm

If your child has ringworm, see your pharmacist unless it's on their scalp, in which case you should see a GP. It's fine for your child to go to school once they have started treatment.

Scarlet fever

If your child has scarlet fever, they'll need treatment with antibiotics from a GP. Otherwise they'll be infectious for 2 to 3 weeks. Your child can go back to school 24 hours after starting antibiotics.

Slapped cheek syndrome (fifth disease)

You don't need to keep your child off school if they have slapped cheek syndrome because, once the rash appears, they're no longer infectious. But let the school or teacher know if you think your child has slapped cheek syndrome.

Sore throat

You can still send your child to school if they have a sore throat. But if they also have a high temperature, they should stay at home until it goes away. A sore throat and a high temperature can be symptoms of tonsillitis.

Threadworms

You don't need to keep your child off school if they have threadworms. Speak to your pharmacist, who can recommend a treatment.

Vomiting and diarrhoea

Children with diarrhoea or vomiting should stay away from school until they have not been sick or had diarrhoea for at least 2 days (48 hours).
